See Lenny's note below.

I am attaching a copy of our draft reply to the NGOs, which I believe the region will sign, since the incoming was to them.

Ex. 5 - Deliberative

Ex. 5 - Deliberative

In any case, I am available to discuss it should you feel the need.

Thanks

Gregory Helms

Hi Greg,

I understand from Frank Nye that you are working on a response to a request from Earthjustice regarding LEAF analysis in Region 4. My Division Director has asked me to ensure that ORD is kept informed of this request. As ORD previously asked me to contact you with any further questions regarding LEAF, i.e., as it pertains to AES, I thought I you would also be the appropriate point of contact for this issue.

Best regards,

Len
